November 9-13, 2020

JOIN US FOR A VIRTUAL DEMO

Have you heard? Pack Expo is going virtual this year. What does this mean to you? Instead of traveling to Chicago in November to see the latest in packaging technology, demonstrations will be live-streamed and will include an online chat function with our knowledgeable sales teams. We are working feverishly at Engage Technologies to bring you demonstrations of our latest and greatest products. We will deliver the same in-depth product knowledge and details you would receive if you were standing in our booth.

How will this work? Engage Technologies' family of companies - **Squid Ink**, **Easte**y, and **AFM**, have registered for live-demonstration time slots throughout the week of **November 9-13**. These 15-minute demonstrations will include a thorough product overview, a live demo of the product, and a live chat option for those wanting to learn more.

Show hours are Monday, November 9 – Thursday, November 12, 10am–3pm CST, and Friday, November 13, 10am–1pm CST. Be sure to reserve your viewing timeslot by visiting our Showroom pages today!

JETSTREAM™ CIJ - INCREASE YOUR PRODUCTIVITY WITH LOW MAINTENANCE CIJ TECHNOLOGY

The JetStream CIJ lets users mark their products with high-quality CIJ coding for less with a feature-rich system, built-in touchscreen, and easy to use operation.

VIPER™ TIJ - COST-EFFECTIVE HIGH-QUALITY PRIMARY AND SECONDARY PRODUCT CODING

Easily code your products with the Viper's hi-quality 600 dpi resolution and no-mess ink cartridges with immediate dry time on porous substrates and 1-second dry time on most non-porous substrates.

COPILOT® MAX - REPLACE COSTLY CASE LABELS WITH THE HI-RES COPILLOT MAX PRINTING SYSTEM

Print directly on your cases and start saving money today with the CoPilot Max's industry leading razor-sharp 360 dpi resolution print and 2.8" print height.

SQ-LASER - LASER CODING SOLUTIONS FOR PERMANENT MARKING ON A RANGE OF PRODUCTS

SQ-Laser Coders provide high quality, permanent marking for less! Say goodbye to consumable inks with Squid Ink's proven high speed laser coding systems.

COPILOT® - UNLIMITED VERSATILITY FOR ALL YOUR CODING NEEDS

This easy to use printer meets the harsh demands of your application while delivering high-quality print on porous or non-porous surfaces.

EB35A AUTO BUNDLER - SLEEVE WRAPPING FOR PRODUCT PROTECTION, SAFETY, AND SECURITY

Easteey's rugged EB35A automatic bundler offers proven reliability for product protection on trays, individual, or multi-packed products.

ERX-15 CASE ERECTOR - AUTOMATE YOUR PACKAGING LINE WITH EFFICIENT CASE ERECTING

With production rates up to 15 cases per minute, the ERX-15 case erector enables a single operator to form, seal, and pack corrugate cases.

VSA1721 AUTO L-SEALER - AUTOMATE YOUR LINE WITH AN EFFICIENT, QUALITY BUILT L-SEALER

Easteey's small footprint VSA1721 Auto L-Sealers provide easy to use product protection and security on your automated shrink wrapping line.

CASE TAPERS - AUTOMATE YOUR CASE SEALING PROCESS AND STOP TAPING BOXES BY HAND

Streamline your packing process with Easteey's case former and Easy Packer case taper - an affordable alternative to automatic case erecting.

VS1620 COMBO UNIT - SHRINK WRAP YOUR PRODUCTS WITH ONE MACHINE

The Value Series Combo Unit is a reliable hot knife L-Sealer and shrink tunnel on one frame for simple setup and mobility within the plant.

LX-150 - AUTOMATICALLY APPLY SHRINK SLEEVE LABELS WITH PROVEN RELIABILITY

The LX-150 is a proven workhorse for applying shrink sleeve labels up to 300 CPM for middle, full body, and full body and cap applications.

LX-100 - AFFORDABLE SHRINK SLEEVE LABELING PROVIDES PRODUCT APPEAL AND SECURITY

LX-100 provides reliable shrink sleeve application up to 80 CPM for industries including food, beverage, pharmaceutical, cannabis, and more.

CH-100 - ADD SAFETY AND SECURITY TO PRODUCTS WITH AFM'S TAMPER BAND APPLICATOR

CH-100's simple and low maintenance design applies tamper bands to round bottles made of plastic, glass, or metal at speeds up to 120CPM.
